POLYTECHNIQUE MONTRÉAL

WORKSHOPS & COLLABORATIONS · 2026/2027

Create a hands-on experience with Polytechnique Montréal students

Workshops, site visits, case studies and professional events designed with your team for the students you want to reach

WHY PARTICIPATE

01 Reach the right students

Programs, interests and year of study.

02 Showcase your career opportunities differently

A hands-on experience beyond a traditional presentation.

03 Build a lasting relationship

Connect with future interns and graduates.

A FORMAT FOR EVERY COMPANY

01 Hands-on workshop
Explore a skill, method, tool or real business challenge.

02 Case study / challenge
Tackle a problem based on your business reality.

03 Site visit / office tour
Introduce your facilities, projects and teams.

04 Panel
Connect with engineers and industry professionals.

05 Technical demonstration
Showcase a technology, tool or process used by your teams.

06 Targeted networking
Meet students who match the profiles you are seeking.

> **We define the final format with your team based on your goals, available resources and the students you want to reach.**

HOW IT WORKS

01 Your goal

Student profiles, roles or topics you want to highlight.

02 Co-design

We define the most relevant format together.

03 Student engagement

The CLÉE manages promotion, registration and logistics

04 Meet the students

Connect directly with Polytechnique Montréal students.

WHO DOES WHAT

Your team

Subject matter expertise
Speakers and content
Format approval

The CLÉE

Student targeting and promotion
Registration and coordination
Venue, logistics and follow-up

NO READY-MADE CONCEPT REQUIRED

You don’t need to come with a fully developed workshop.

We can define the audience, topic, format and level of involvement together.

POSSIBLE THEMES

Automation · Data & AI · Project management · Energy · Software · Product development · Construction · Supply chain · Consulting · Career development

NEXT STEP

Let’s build your next activity with Polytechnique Montréal students.

We identify the right format together.
